

CONCEPTUAL DATA MODEL
Maldives Yearbook, Table 9.2: Fish Catch by Vessel Locality, 2015 - 2020

Statistic:		FISH CATCH BY VESSEL LOCALITY, 2015 - 2020	Percentage of FISH CATCH BY VESSEL LOCALITY, 2015 - 2020	%Change over previous year of FISH CATCH BY VESSEL LOCALITY, 2015 - 2020
Statistical Unit (counted object)		fish catch	fish catch	fish catch
Population		fish catch, in Maldives, from registered vessel, in year X	fish catch, in Maldives, from registered vessel, in year X	fish catch, in Maldives, from registered vessel, in year X
Statistical Measure (generalised) plus any parameters		Total (of objects in the population)	Percentage of total (of objects in the population)	%change over previous year (of objects in the population)
Variables	Population-defining property	where caught (reference area): Republic of Maldives how caught (method of catch): from registered vessel	where caught (reference area): Republic of Maldives how caught (method of catch): rom registered vessel	where caught (reference area): Republic of Maldives how caught (method of catch): from registered vessel
	Classification variable(s)	Vessel locality (locality of vessel registration) (Malé or atoll)	Vessel locality (locality of vessel registration) (Malé or atoll)	Vessel locality (locality of vessel registration) (Malé or atoll)
